It's the little details that make a big difference: The icing on the cake of home decoration that brings all of the design elements together harmoniously, provides the perfect final touch and makes your dream home come true.

PEDROSS: TRADITION MEETS INNOVATION

Extraordinary personages are at the root of every successful company. The same holds true for PEDROSS: When the South Tyrolean **Master Carpenter Karl Pedross** set off on his own in 1956, he could have never imagined the rapid growth and development his company would experience. In making the full transition to all-natural skirting boards during the seventies his impeccable sense of business paved the way for lasting corporate growth.

Today, PEDROSS is the embodiment of uncompromising quality and unrivalled assortment in the area of flooring accessories. Under the leadership of **Martin Pedross** in second generation, this tradition of success is carried on with confidence, bringing the family company closer to the fulfilment of a great vision: Leader of innovation in the moulding and flooring accessory industry.

OUR CERTIFICATIONS

Naturally sustainable

Protecting the environment is something we take to heart. That's why our MDF laminate mouldings are distinguished by their minimal use of resources, while meeting strict European quality and ecological standards: We use low-emission support material in accordance with En 120 (Class E1) and rely on procedures that are 100% free of formaldehyde and solvents when adhering the surface decor. To complete the circle of sustainability, our production waste is re-processed into briquettes and all of our folders are printed on FSC®-certified paper.

BEAUTY WITH INNER STRENGTH

Cost-effective, practical and extremely versatile – that's how building owners and flooring experts know our **laminate mouldings**. When taking a closer look, these seemingly discreet products reveal unexpected qualities:

The support material is a **medium density fibreboard**, also known as **MDF**. Despite being one of the newest, it is already one of the most commonly used wood-based panels worldwide. This is largely because it provides mechanical, technological and physical properties that are comparable to those of solid wood, but is manufactured with extremely efficient use of resources. High quality raw materials and state of the art pressing technologies ensure maximum stability and durability.

The **foil coating** provides the robust core with an individual aesthetic exterior: The exceptionally wide range of laminate and highly resistant décor foils offers something for every style of interior design.

TECHNICAL DATA

>> SUPPORT MATERIAL
Our laminate mouldings are based on the support material MDF (medium Density Fiberboard) in accordance with the standard E1 and EN120.

>> ADHESIVE
• Hot-melt adhesive with excellent bonding
• Guaranteed free of formaldehyde and solvents
• Fully eco-friendly.

>> SKIRTING BOARD DECOR FOILS
• Large selection of high-quality laminate decor foils, with the right match for any laminate floor
• Highly resistant to cleaning agents and chemicals.

>> FLOORING PROFILE DECOR FOILS
• Extremely low emission rates in accordance with E1
• Highly resistant to cleaning agents and chemicals
• Highly resistant to scratches and wear.

A VENERABLE TALENT

MDF laminate mouldings bring the highest demands for quality together with an environmentally friendly production process that ensures the effective use of resources and provides good quality that is affordable for everyone. They ensure:

- high stability and durability
- unlimited design options
- easy care and maintenance

Decor foil books

Largest selection of decor foils. Quick and easy matching with your flooring. With our decor foil books for mouldings 1 + 2 and the decor foil book for flooring profiles, all of our original decor foils will always be within your reach. The great advantage of Pedross decor foil books is that you will never have to worry about colour differences between the decor you choose and the decor you receive, as it is often the case with conventional sample books. Pedross foil books contain original foils rather than copy images. The foils in the book are also available in the minimum size of **65 x 240 mm**. Find out for yourself just how quick and easy finding the right foil can be for you.

FROM CLASSIC TO EXTRAVAGANT

We offer our high-grade, laminated wrapping foils in **over 250 standard decors**. They will provide – perfect for any laminate floor – the optical flair of hardwood in your home or serve as a practical, monochrome accompaniment to all other types of flooring and materials, according to your individual needs.

Wood embodies true harmony: As the ultimate symbol of nature, wood demonstrates its superb versatility time and time again by creating ever new, exciting and yet balanced synergy with other materials.
